SAFETY INSTRUCTIONS

- Turn off the main power in the electricity box and confirm the live wire is not alive with a test pencil.
- Separate the back base from the panel by built-in magnetic force.
- Connect the live wire to terminal L and the neutral wire to terminal N.
- Fasten the base to the wall box with mounting screws and fix the Home link pro back to the base by built-in magnetic force.
- Note that the screws should not be fixed too tight during installation in case of any deformation or damage to the screen and hardware.
- If your Home link pro is not flat after installation, do not press the screen violently, please check the wall box and the base installation first.

FEATURES

○ Comprehensive Control:

Manage lights, curtains, air conditioners, and all other smart home devices from a single panel.

○ Smart Scenes:

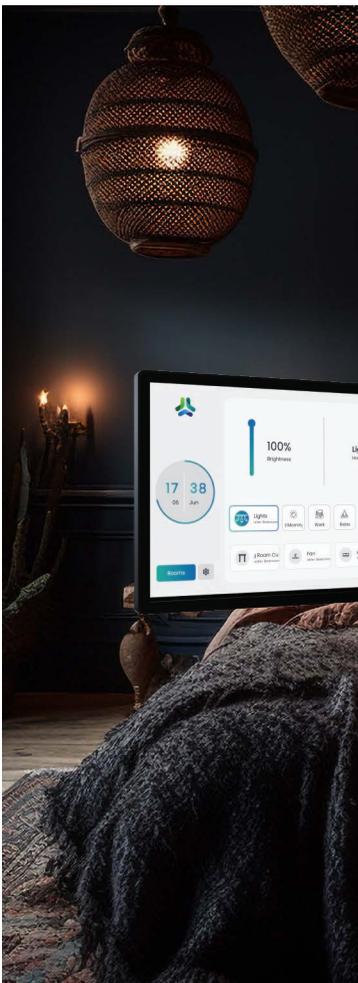

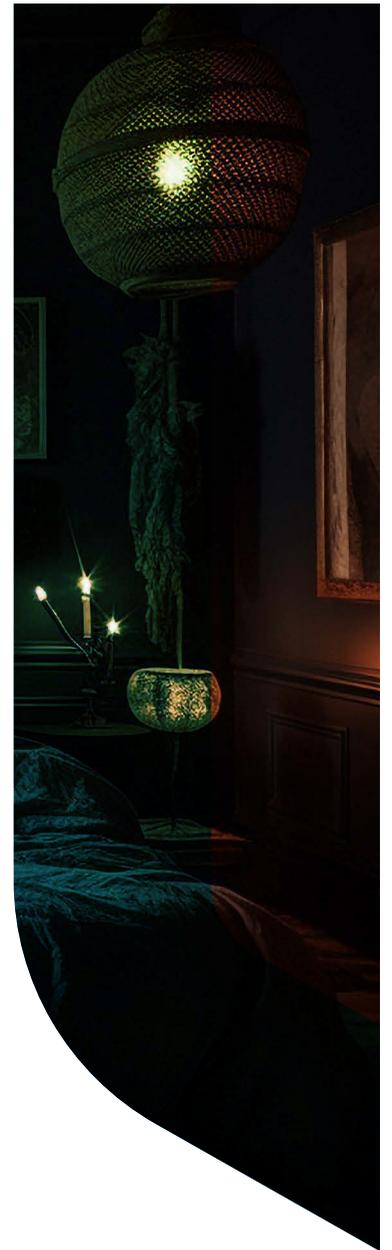

Configure and customize smart home scenes in the SmartNode app.

Activate scene modes with one touch on the screen, making it easy to switch between different settings like "Night," "Morning," "Vacation," and "Movie."

○ User-Friendly Interface:

The intuitive touch screen makes it simple to navigate and control all your devices.

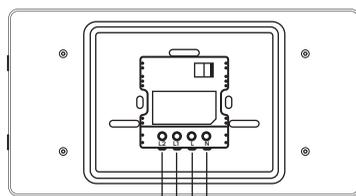

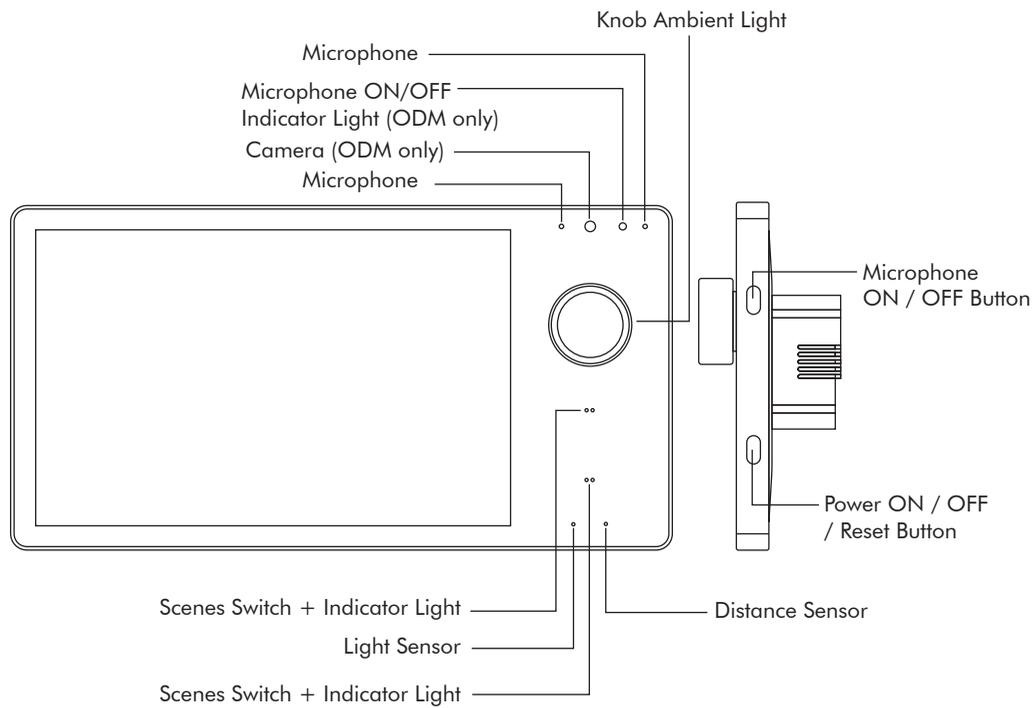

Control dimming, AC temperature and television volume through the Smart Home Pro knob.
