Product Description

Product Overview:-

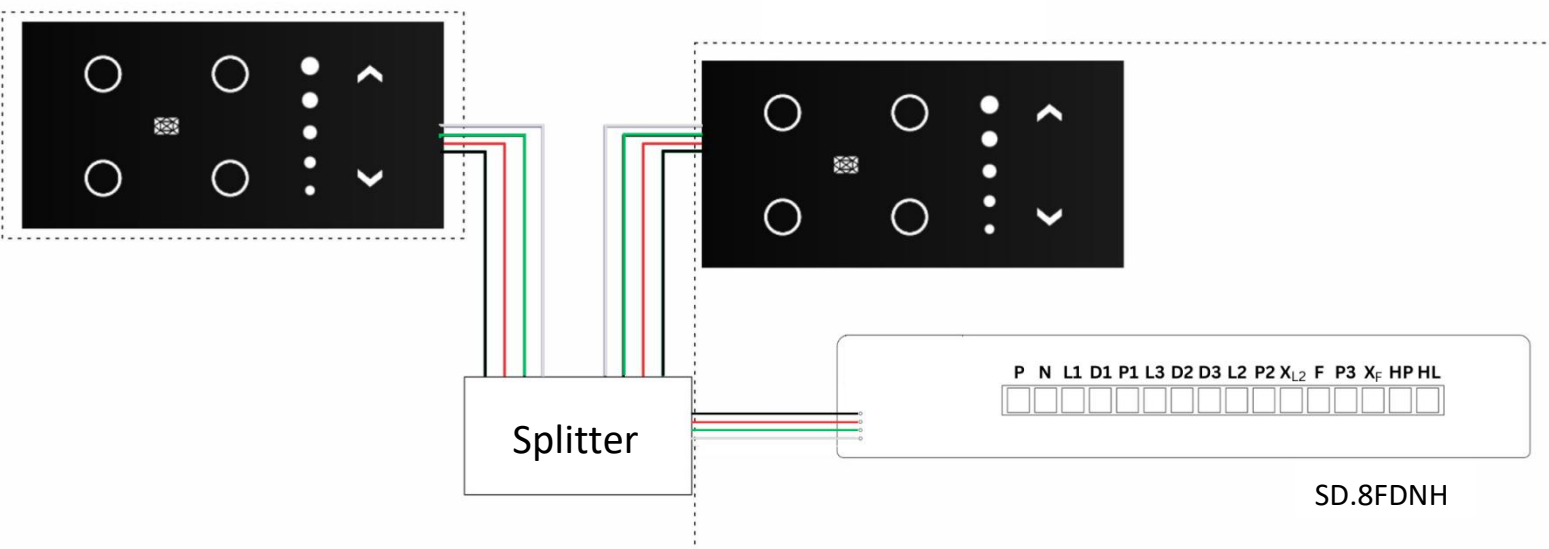

Model Number: ACC.SP.1

Description: The Splitter enables 2-way or 3-way control of a single load using the remote devices and the smart devices, respectively. It ensures smooth coordination between the two, making it ideal for hybrid automation systems.

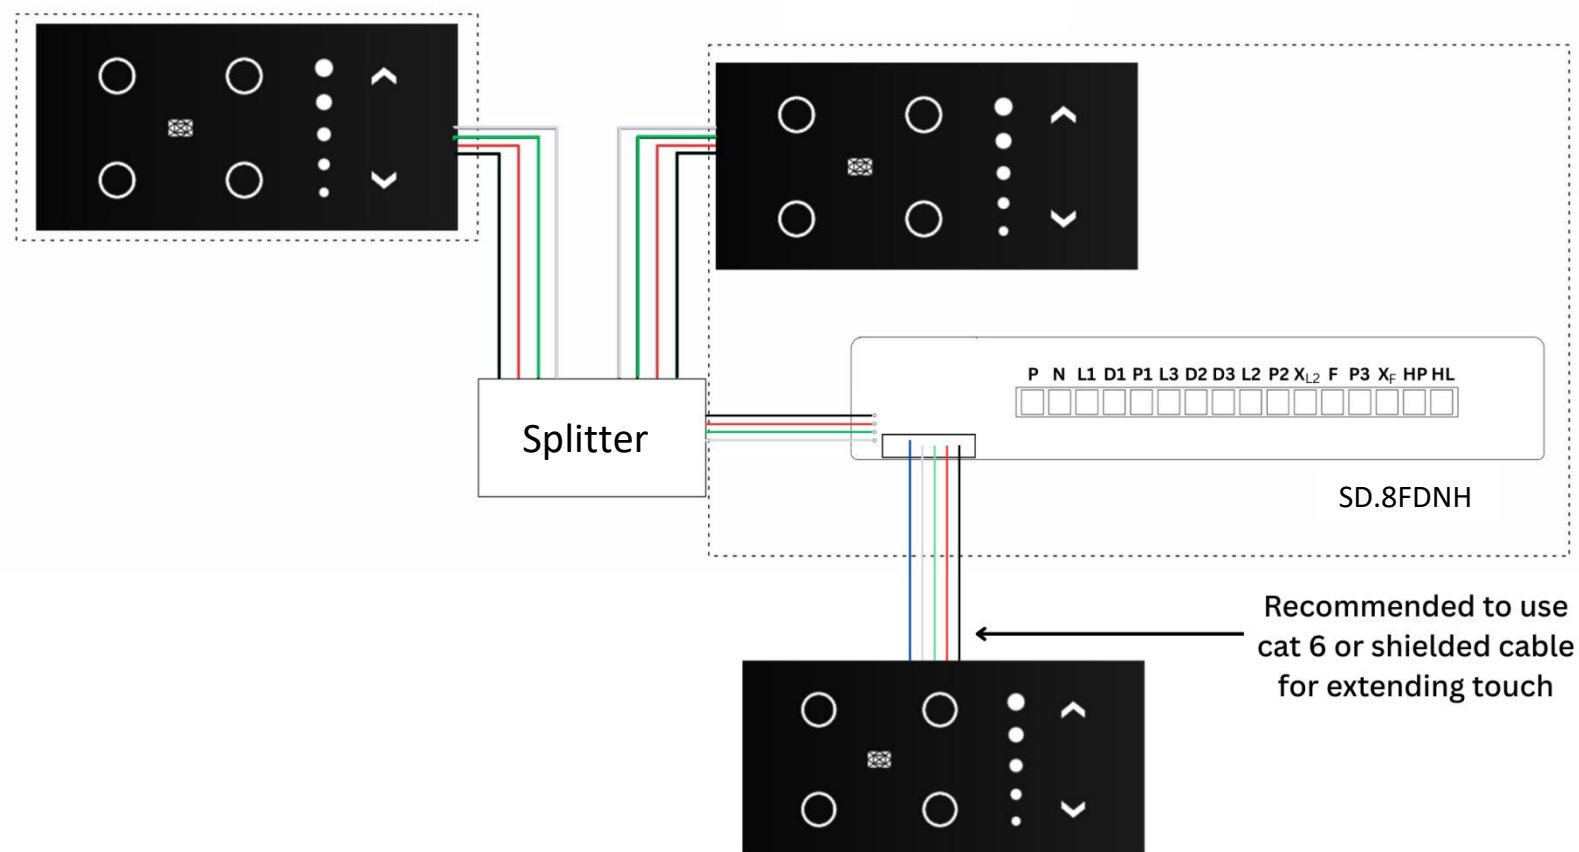

Installation

Wiring Diagram:-

1. Two-Way using splitter

2. Three-Way using splitter

Note:- The RD.2XXNX, RD.2XXXH, and RD.1B models do not support the use of splitter with these devices.
