Product Info

Product Name: COSMOS

Description: Cosmos features a premium metallic design that seamlessly complements any modern interior. It offers smooth control of lights, fans, curtains, and appliances, delivering a refined user experience while integrating effortlessly into the Smart Node ecosystem.

Application: Suitable for residential, commercial, and hospitality spaces.

Features

- Easy retrofit with no rewiring required.
- Customizable size, color, and switch name.
- Rotary knob with precise 0–100% dimming control.
- Adjustable RGB backlight via the app for SD, and an external IR module is required for RD.
- Complies with Indian switchboard standards.
- Compatible with Smart Devices (2022 & later), Remote Devices, Curtain Controllers, Curtain Motors, Scene Switch Controllers, and DALI Flush Mounts.
- Quick back-end replacement without changing the front keypad.

Benefits

- Effortless and intuitive operation.
- Soft, quiet button feedback.
- Durable build for long-term reliability.
- Easy and hassle-free installation.
